

# Nature School and Outdoor Education

- Why outdoor education ?
- Nature education at Timosenkoski Nature School

# HÖNTTÄMÄKI SCHOOL

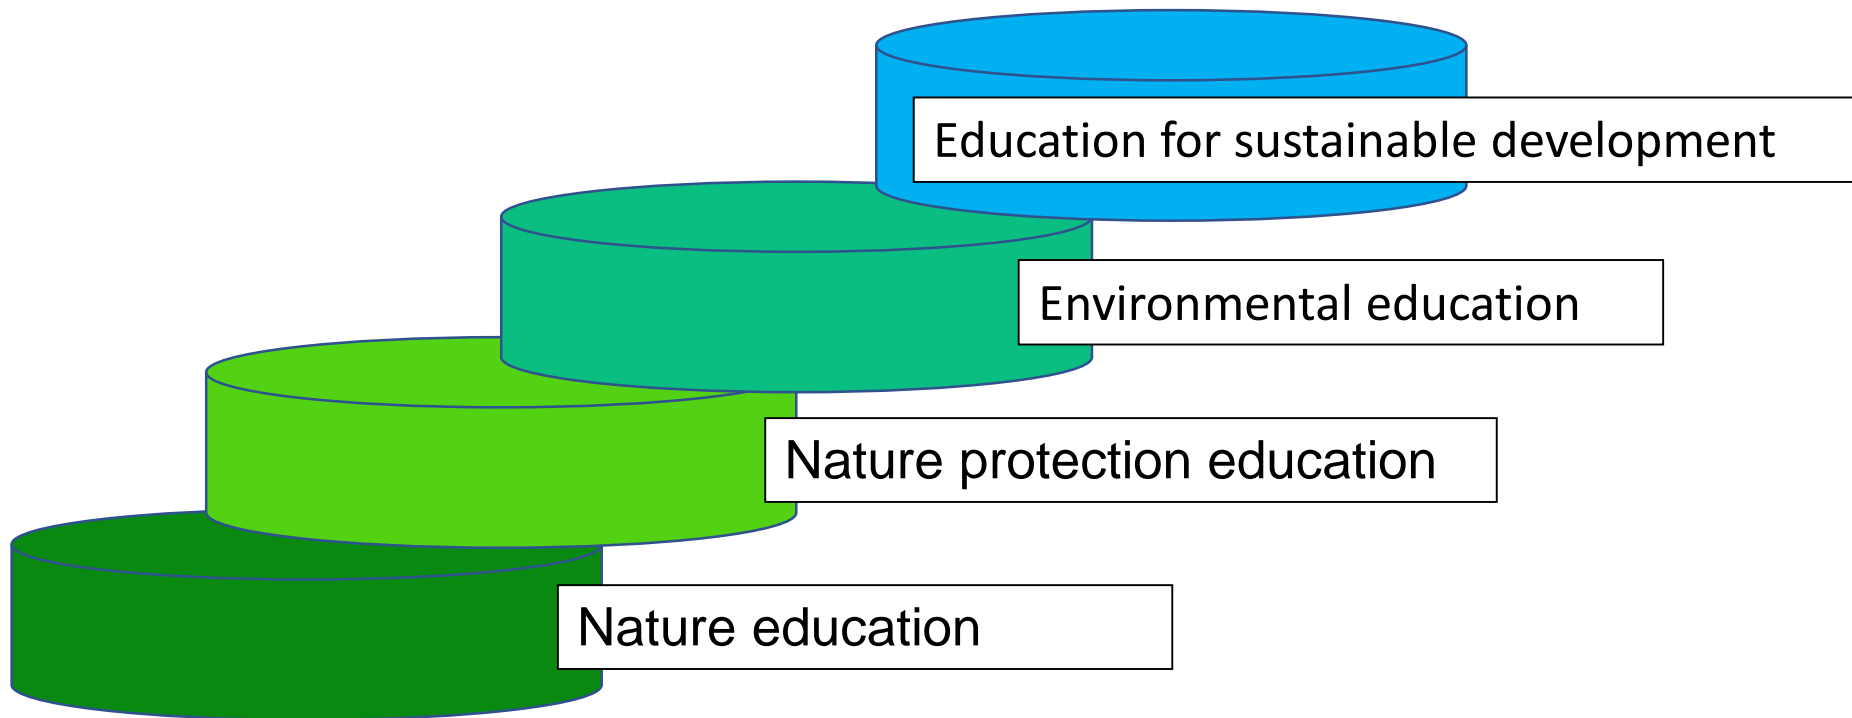

# TIMOSKOSKI NATURE SCHOOL

# AGENDA2030

Environmental education = ***Education for sustainable development***

# National Core Curriculum for Basic Education 2014

School experiences affect the environmentally responsible and prosocial behaviour of pupils and guide them towards a *more sustainable way of living*.

**Sustainable lifestyle**

# Proenvironmental behavior

- *Means behavior that aims to minimize the harm to nature and build environment*

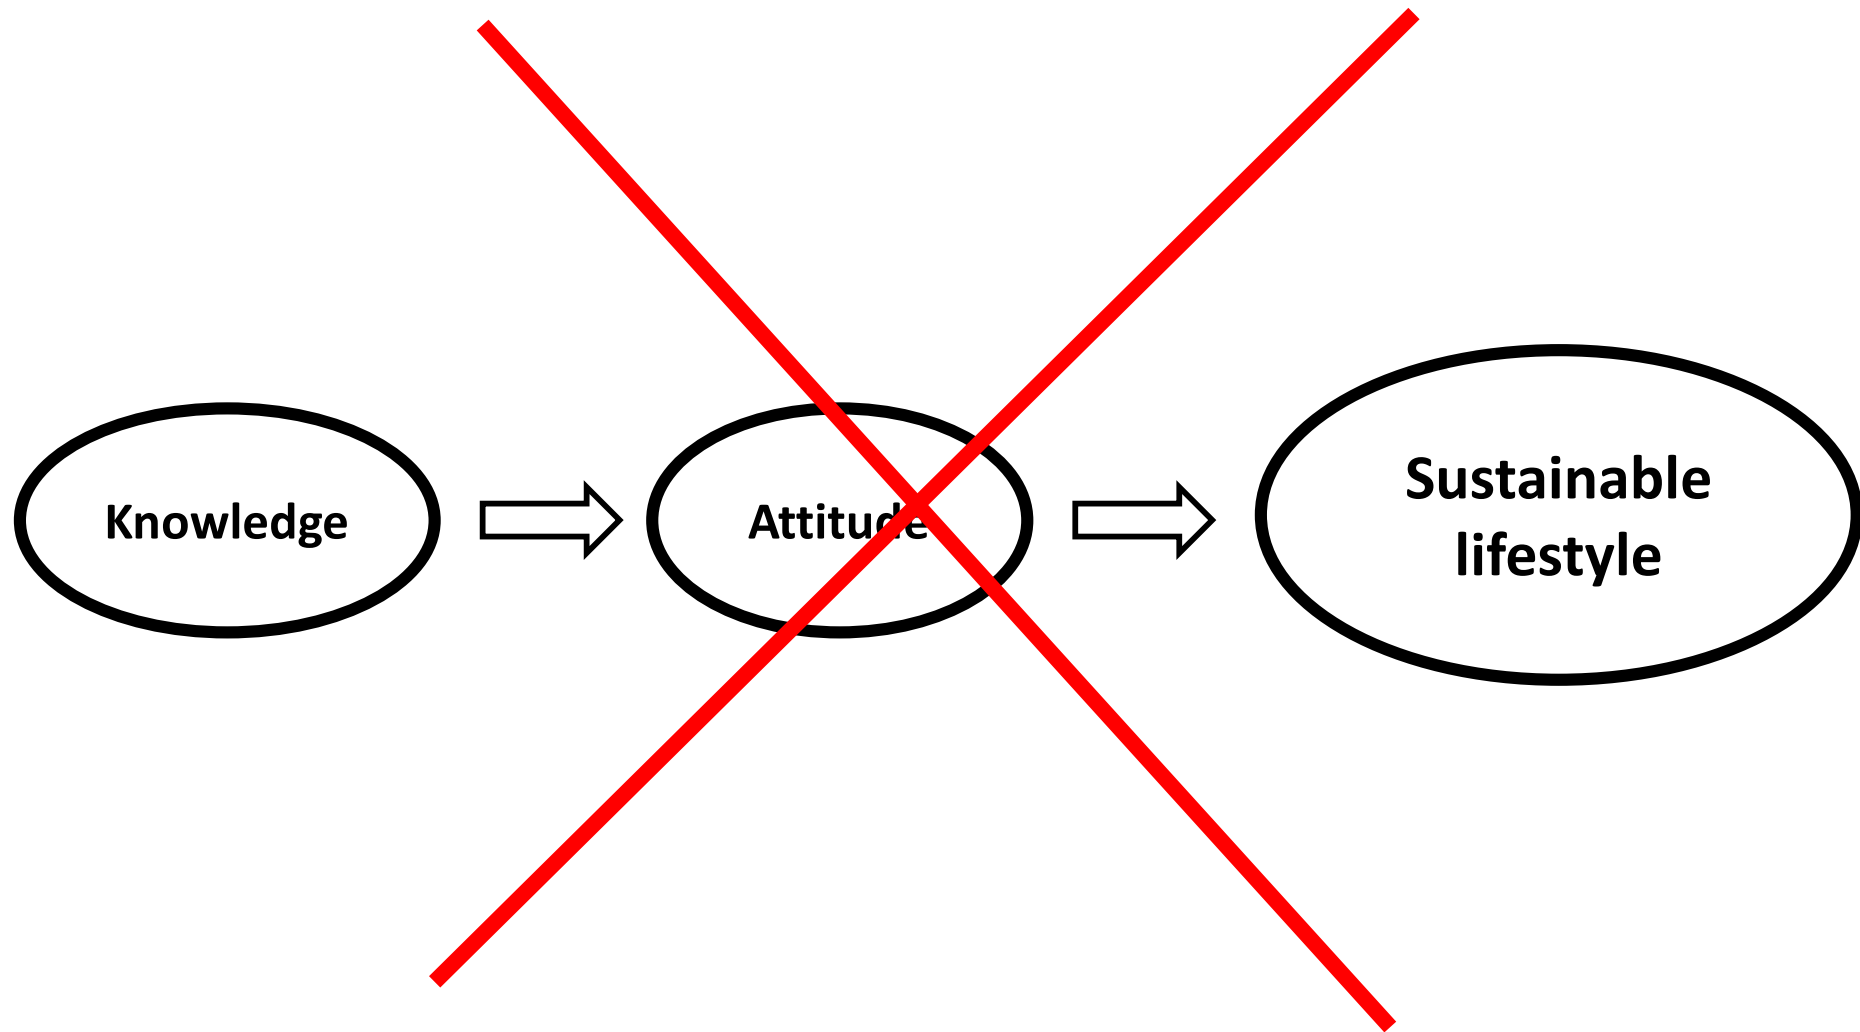

=

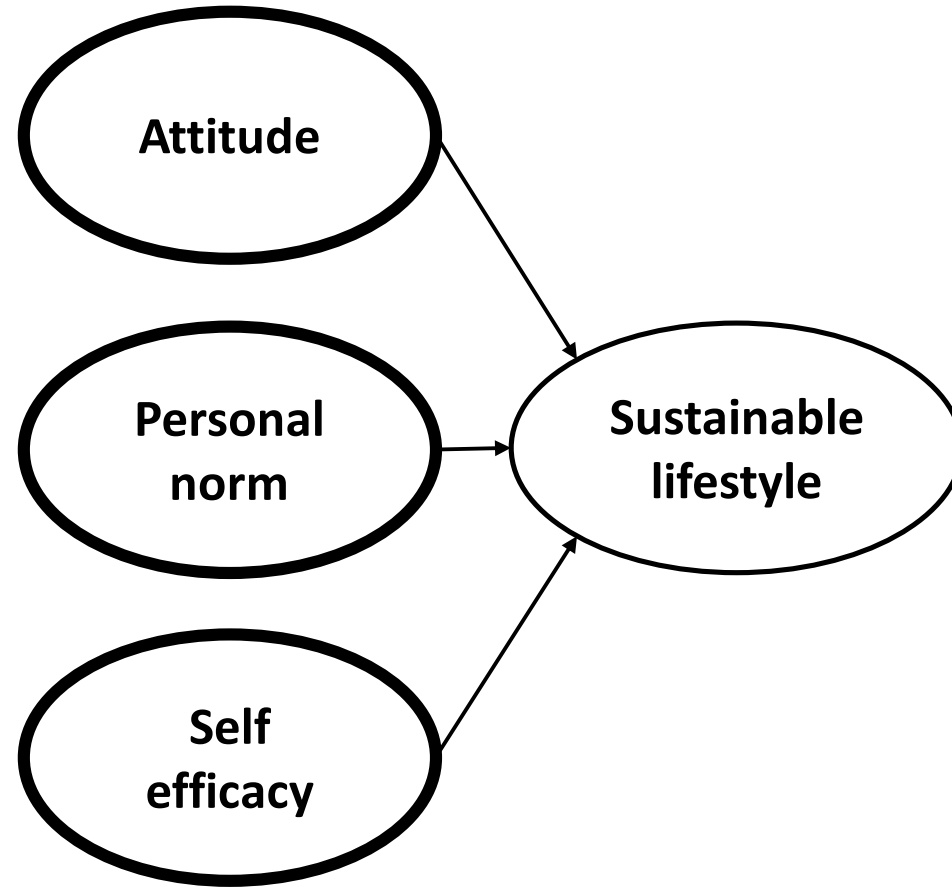

**Sustainable  
lifestyle**

# Prosocial behavior

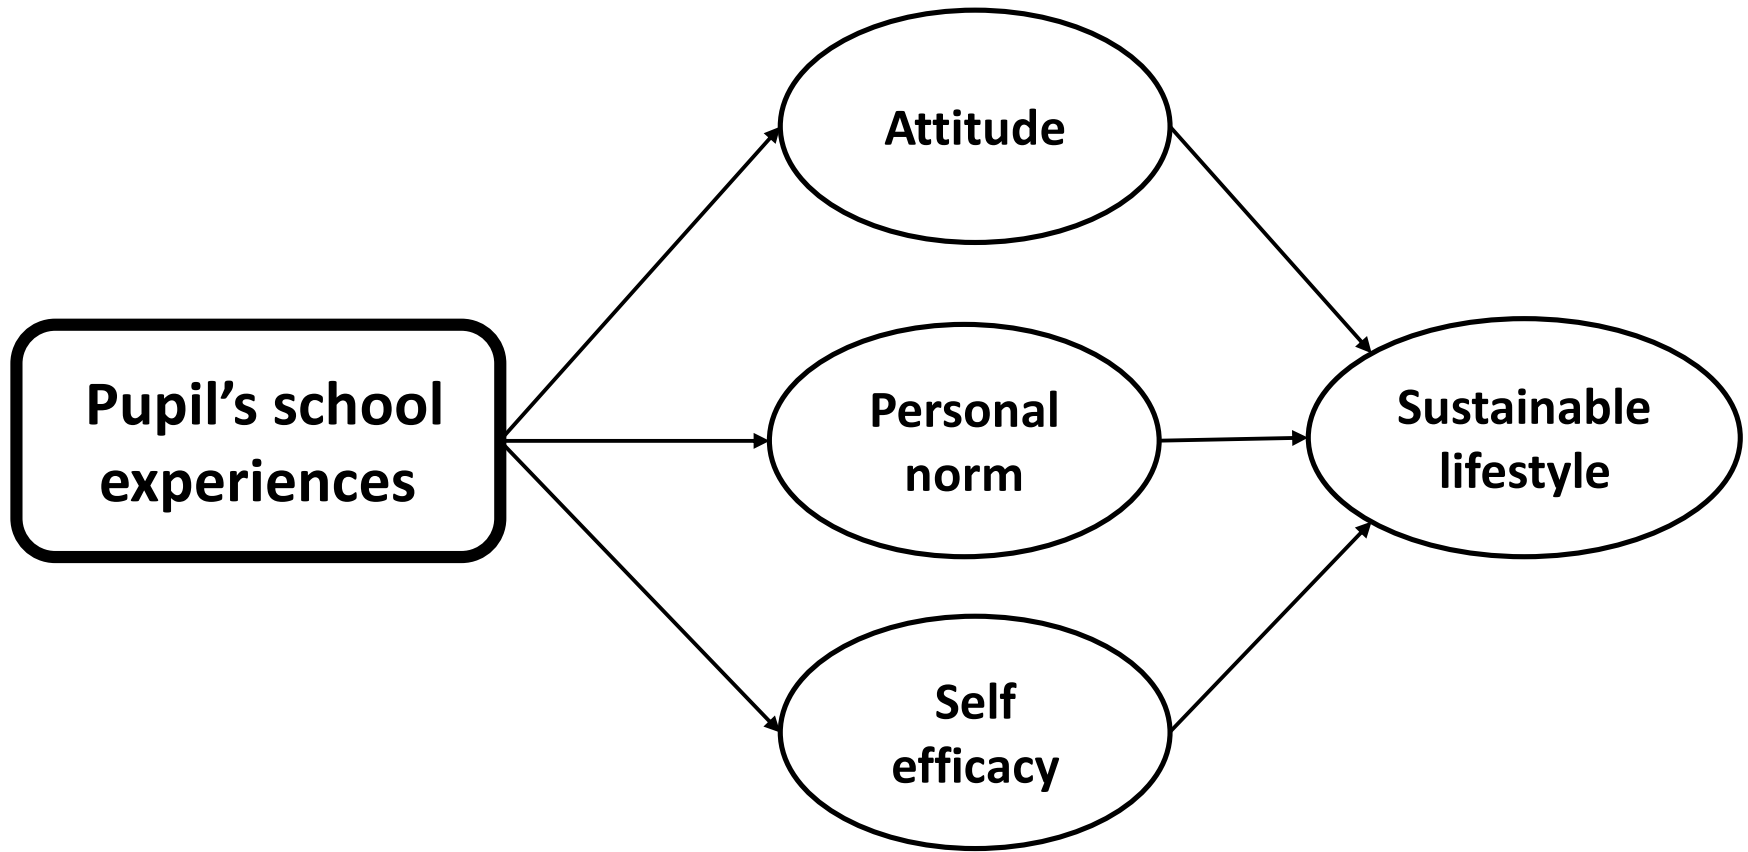

- *Means an individual's voluntary and unselfish want to help other people*

# Environmental responsible behavior is based on a positive relationship with nature

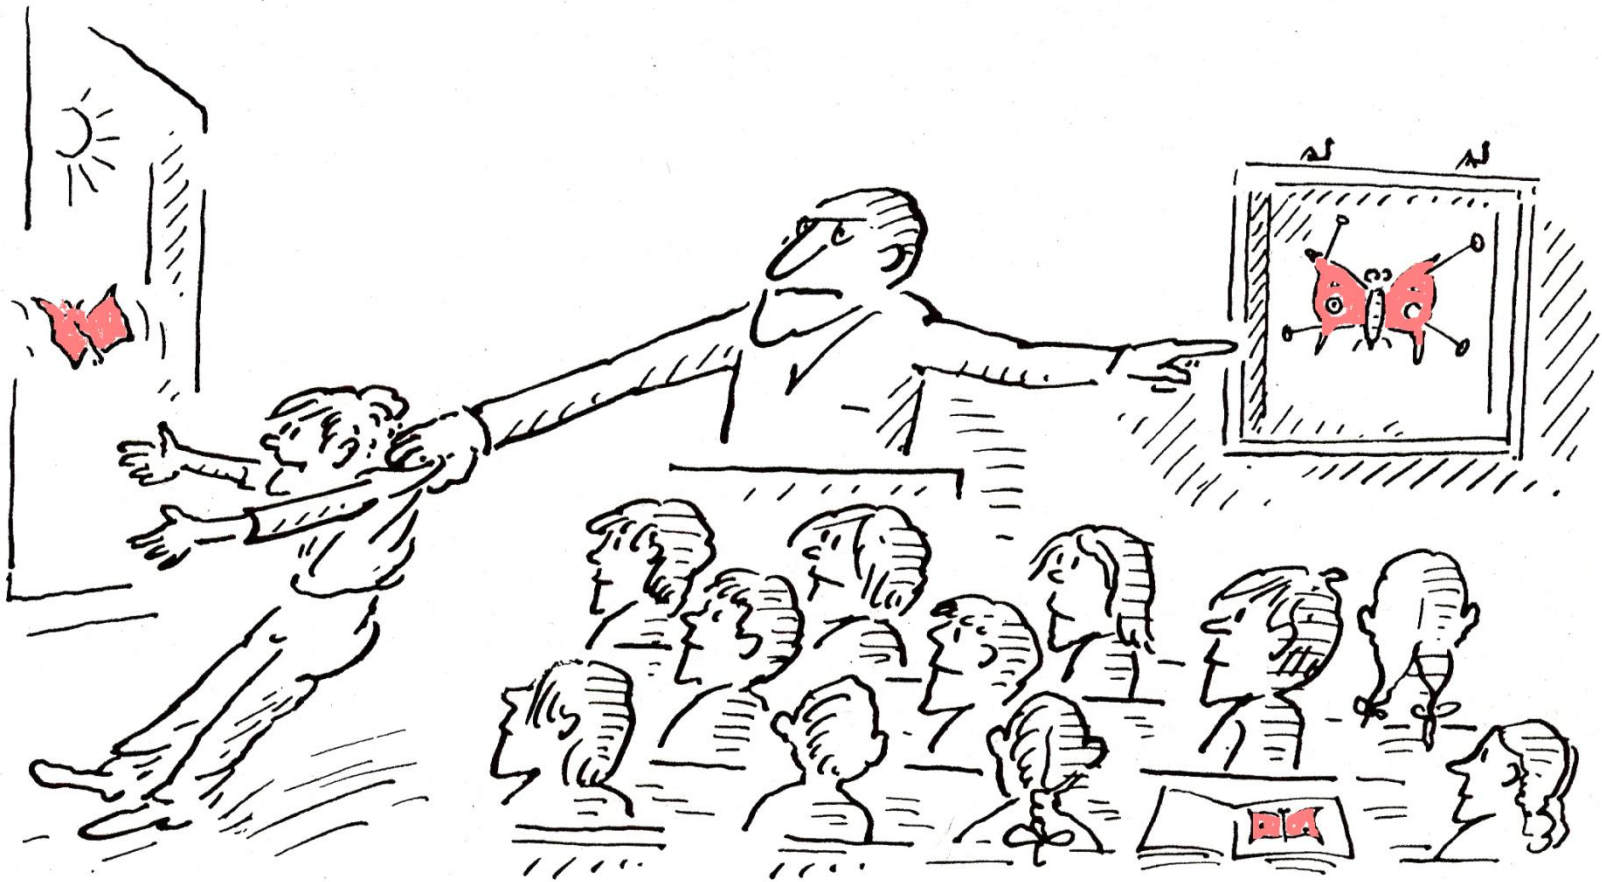

**Sustainable lifestyle**

Possibility to do something for nature and environment

Knowledge about nature and ecology

Positive relationship to nature

# Timosenkoski Nature School

🌿 The nature school gives pupils facilities for learning through memorable first-hand experiences in nature.

# The hiking area around the nature school serves especially children and families with children

- marked trails, campfire places, bridges
- the area is visited by kindergartens, schools, free time associations, families

# TIMOSENKOSKI NATURE SCHOOL

- Nature School programs support the implementation of curriculum
- Usually the programs last four hour (9:00-13:00)
- Some programs can be implemented near pupils own school
- Nature School surroundings offer different learning environments
  - => Forest
  - => Swamp
  - => Water
